It fills the nerves with Native life,
And warms the stomach so,
Digestion moves with greater strife
And sets the soul in glow!

"Bill's" Lager is the best of drink,
It makes a man feel all he'd think;
It warms him through and through, you know
And puts his senses in a glow.

It never makes a man quite drunk
Nor filthy as a common drink!
But always makes the senses rise
To Truthful triumph if he buy!

But's guesses, too, are just the thing,
They hold us much as Nature'll swing,
And keep the mind in equal poise,
And conscience from a drunken noise.

So you who want your senses whet
You drink Bill's Lager, and you'll get
The thriftpense worth in sparkling foam,
At Bender's shop and happy home!

So you that want a bev'rage clear
And one that speaks his fun,
Come buy of Bill his Lager Beer,
'Twill make you feel sublime!

And will digestion much improve,
And make your business onward move!

JOB PRINTING, OF ALL KINDS, EXECUTED AT THIS OFFICE WITH TASTE AND DESPATCH.

Affairs in Europe.

The intelligence by the Persia concerning the peace question, is by no means very gratifying to those who are desirous to see an end of the war panic. The terms of the treaty of peace agreed upon at Villafranca are daily becoming more and more unpopular with all classes of the Italians. It is confidently stated that neither England or any one of the neutral powers of Europe will send representatives to a Congress bound by the terms of the treaty of Villafranca. It is also stated that Sardinia even will decline to be represented at Zurich, where the Congress is to meet.

It is most certainly a perplexing position that Louis Napoleon finds himself placed in, after fighting so many battles at so great a loss of men and money to gain the freedom of Italy, that his course in the adoption of measures to suspend hostilities should be utterly repudiated by even the weak power he was defending, and to which he has certainly added or reclaimed territory and comparative freedom, at least from Austrian dictation. Napoleon III may yet find to his sorrow that fighting other peoples battles is not only expensive, but a work that gives poor returns even in thanks. Thus far he seems to have gained neither laurels or allies.

MONSIEUR BLODIN COME AGAIN.—This daring performer whose head and heels are on an exact equis was over the rope suspended across the Niagara river for the fourth time yesterday. In addition to the feat of walking the rope, he yesterday changed ends, resting his head upon the rope with his heels in the air, or in other words stood on his head upon the rope over the centre of the stream. He also hung with one hand beneath the rope and then with one leg, and performed divers other antics that it would be impossible for any one to do whose head and heels are not composed of about the same materials.

One of the policemen deputized to keep the peace, fulfilled his mission by knocking down an Irishman with a club and nearly killed him. It was with difficulty that the policeman was rescued from a worse fate.

HOBBS AND EQUIPAGES AT SARATOGA.—A correspondent of the N. Y. Herald does justice, in the following, to the fashionable quadrupeds of Saratoga, some of whom are of better pedigree than their owners:

I think the most attractive feature of the live collection at Saratoga this season is the horses. There never were so many private establishments here before in one season. Some of the horses are really worth coming hundreds of miles to see. The best method of viewing them is to go to Saratoga lake—the principal point of attraction every afternoon—a drive of only five miles. From about four o'clock, through the mellow twilight and into the dusky eve, there arrive and depart a pageant of elegant teams with their gilded trappings and liveried outriders. Nothing can surpass the gay scene. I have witnessed a single line of barouches, reaching nearly a mile in length, filled with the fashion of the principal cities in the Union, averaging about three ladies to one gentleman. The variegated colors of their rich dresses, blending the charms of the rainbow, the silver mountings of the harnesses and carriages flashing in the sunlight, the proud action of the splendid steeds, the bright eyes, happy faces, the merry laugh and shout, and absence of all rancor and indecorum, contributed to make it an exciting and very beautiful scene.

Digby says, "if that gold woman recently exhumed from an Indian grave on the Isthmus is of good size and will come on here he will marry her. He thinks that she would make a jewel of a wife."

Deaths of Distinguished Men.

We have to record the deaths of two of the most distinguished citizens of the country as occurring Monday last—that of Hon. Richard Rush, at Philadelphia, and Col. Herman Thorne, at New York.

Mr. Rush, at the early age of 37, was appointed by President Monroe Envoy to England. He was recalled by President Adams to fill the position of Secretary of the Treasury. Toward the close of Gen. Jackson's second term, he was chosen special agent to England to take charge of the Smithsonian's bequest. In 1847 he was appointed by President Polk Minister to France. After having filled important positions by the favor of four administrations, he finally retired to private life on the accession of Gen. Taylor to the Presidency. He was nearly 70 years of age when he died.

Col. Thorne, by an early marriage, became the possessor of great wealth. He resided in Paris during the prime of his life, only occasionally visiting his native country. In his day, there were but comparatively few Americans abroad, and his home became widely celebrated as the American establishment. Some few years since he returned home and resumed his residence in New York, building for himself a magnificent mansion in 18th street. He was in the 78th year of his age at the time of his decease.

Col. Thorne leaves a son who has a wide notoriety as one of the most successful stock breeders of the Union—his domain at Thorndale, Dutches Co., being stocked with more choice and really valuable animals than can be found in one herd in Europe.—*Albany Statesman.*

Crops in Iowa.

The Rochester Union says a chat with an intelligent gentleman of this city who has just returned from Iowa, has convinced us that the reports of large crops in that State are not exaggerated. Our informant has been in Iowa for the last two years engaged in business which gave him abundant opportunity to inform himself, both by conversation and personal observation as to the agricultural interests of the State. He affirms that the crop of wheat just harvested is the largest and best the State ever produced, and adds that if the farmers can receive only four shillings per bushel for the grain they will be satisfied, pay their debts, live well and go on with their labors rejoicing.—The corn looks well and promises as fairly as the wheat has performed. The frost did no harm except to a patch here and there along the Mississippi. Wild grass is largely depended upon by the farmers of Iowa, but the "tame grass," so far as the breadth of ground goes, yields handsomely. The cattle of Iowa are sure to be well cared for this winter.

WASHINGTON IRVING.—A correspondent of the Peekskill Democrat refers to some of the domestic incidents of Irving as follows:

Our readers are, of course, aware that he is unmarried, though they may not know the cause of his celibacy. When he was young he fell in with a beautiful girl whose name was Julia; his love was reciprocated, and they were engaged. This was before his literary talent showed itself, and the young lady's father, hearing of his daughter's engagement broke it off, aware that Mr. Irving had but a small fortune. The young lover returned to his own home dejected and without hope, and poor Julia died soon after of a broken heart! and her betrother continued true to her by always remaining unmarried. If our readers have read the Sketch Book and Bracebridge Hall they will probably remember in those little romantic tales, that the names of the heroines are Julia—probably his favorite name.

A PULPIT JOKE FOR RAILROAD AND CANAL MEN.—A few days ago, says the Buffalo Commercial, one of our eloquent city divines perpetrated a bon mot in his sermon which not a few took, and among others a prominent railroad man seemed to appreciate it. He was preaching upon repentance, "and," said he, "when the tears of repentance are flowing, substantial proofs of a regenerated life are expected. Only the tears of deep penitence can wash away the sins of life; for I tell you the heavy freight must go by water."

MYSTERIOUS.—Several days previous to the death of a child, in Richmond, Va., recently one of the limbs of an aspen tree in the front yard of its parents, snapped asunder and withered. The same circumstance, upon the identical tree, has occurred upon the approach of the death of four other members of the same family, previously, since the tree was first planted—a period of 13 years. Though perhaps the result of mere accident, the coincidence furnishes ample matter for the thoughts of the superstitious.

A New York correspondent says that ten millions of hoop skirts are manufactured in that city per year. Houses there make more than three thousand per day, and still cannot fill their orders. In the name of lost pins, where can such a world of exquisites go!

Terrible Accident on the Northern Railroad.

Twenty Lives Lost!!

From the Albany Knickerbocker of Yesterday Morning

Last night our city was startled from its usual quiet by the announcement that a terrible accident had occurred on the Northern Railroad, and that some 20 lives had been sacrificed.

The scene of this terrible disaster was at Schaghticoke, about 20 miles north of this city. It appears that as the train on the above road due here 7:25, was passing over the trestle work bridge at Schaghticoke, which is some 300 feet long, the same gave away with a crash, precipitating the train into the creek below. By this some 20 lives are reported lost, and a large number wounded. As soon as possible every available effort was made to rescue those who were alive from their perilous position. A large number were taken out, several of them badly maimed. As soon as this had been gone through with, a search for the dead was commenced. Some ten bodies were recovered and laid out. Among those were the wife of John Cuyler, Esq., Cashier of the Central Railroad. Also, the wife of Conductor Cooley, of the Northern Railroad, who is a daughter of Mr. Cuyler.

Mr. Cooley himself was on the train, as Conductor, having taken the place of Conductor Gardner, who was taken ill yesterday. Mr. Cooley is severely, if not fatally, injured. It was reported that a babe belonging to Mr. Cooley was also dead. All these parties are residents of this city.

As soon as possible a hand car, was dispatched for this city, which arrived here about 10 o'clock, bringing with it the above sad particulars. Mr. Cuyler, the members of his family, and a large number of others, took passage for the scene of the disaster.

The accident took place about one mile this side of Schaghticoke. The moment the train struck the bridge, which was running very rapid, the structure gave way. The locomotive, however, got across, and became uncoupled from the tender. The latter went down, and the baggage car and two passenger cars went down endwise on the top of the tender, while the second passenger car ran into it and keeled over. The passengers in the first passenger car amounted to some 45 or 50. Many of those were killed, others were seriously wounded. Just before reaching the bridge, the engineer sounded the whistle to put down the brakes, but Mr. Vertholen was not soon enough at his post, and the next instant all was a total wreck.

The baggage car was a complete wreck, scarcely three feet of it being together. It was here that the express messenger got killed, and young McCarriek his leg broken. The latter was the only one who was not killed of all who were in the car. When the car went off the bridge it fell 38 feet, and sank into 8 feet of water. Troy, Aug. 3.

Nine dead bodies had been taken out of the creek up to eleven o'clock last evening, and 20 persons were wounded, while it was thought that more dead bodies were under the wreck.

The Treaty of Villafranca, according to the editor of the Courier des Etats Unis, is not to be considered as a sort of accident; on the contrary, "we must expect to see it assume the proportions of the greatest event of the century, from the point of view of the new French policy." The same intelligent writer also tells us that we may be sure that "behind the Italian question, now apparently settled, will arise in a manner more or less vehement, an English German question."

In other words, Waterloo has yet to be avenged.

She "Flu the track!"—A Mississippi County Court Clerk having issued a marriage license for a young man, shortly after received the following note from him:

Sir: I am Sir July the 5 1859
Mr Moody please let this matter stand over until further orders the girl has Flu the track by her own Request and Release my name off of this Bond if you please.

A CHANCE FOR SOMEBODY.—\$100 Reward.—Wanted, a young man who is willing to obtain a livelihood in the manner his father did, who isn't ashamed of the "old man's" early employment. Also, one young lady, aged from 14 to 18, who does not think "mother" too slow for the times, her father a simple old fool, and a black and tan colored moustache Paradise.

A horse got frightened in Adrian, Michigan on the 20th and ran away. Blinded by light it ran plump into a front door which led directly into the parlor of a house where a lady was sitting watching her baby. Maternal affection conquered her fears and bound her to the spot. The horse apparently reassured by the quiet aspect of things, perceived his mistake and retraced his steps without injury.

A farmer in Yates county has just finished harvesting somewhat less than 6 acres of winter barley, yielding 376 bushels.

PHUNNYGRAPHS.

A bachelor says he dislikes young married people, "because they are so apt to give themselves a hair!"

How is it that the trees can put on a new dress without opening their "trunks?" Because they "leave" out their Summer clothing.

A gentleman who had a scolding wife, in answer to an inquiry after her health, said she was pretty well, only subject at times to a "breaking out in the mouth."

Now do take this medicine, wife, and I'll be hanged if it doesn't cure you. Oh! I will take it then, by all means, for it is sure to do good one way or the other."

"Don't be afraid of the bacon, Mr. Jenkins," said a boarding-house mistress to a boarder. "Not at all, madam. I've seen a piece twice as large, and it did not scare me a bit."

A penny-a liner says that the conversion of the South Sea Island is an easy matter compared to the redemption of a Fifth Avenue heathen.

A modest young lady, who is about to be married vows she'll take chloroform when the time comes.

A pedant said to an old farmer, he could not bear a fool. "Your mother could," replied the farmer.

Ann Betsie has said many good things, and among the rest, that "a newspaper is like a wife, because every man should have one of his own."

A sentimental young chap designs petitioning Congress for an act to improve the channel of affection, so that henceforth the "course of true love may run smooth."

Truth is always consistent with itself, and needs nothing to help it out; it is always near at hand, and sits upon your lips, and is ready to drop out before you are aware; whereas a lie is troublesome, and sets a man's invention on the rack, and one trick needs a great many more to make it good. Truth can live in all regions, flourish in all soils, and become naturalized in all climes.

"Honesty is the best policy, but it keeps a man shocking poor," said Griggs, as he wet the sugar without mixing it with sand.

DR. M'LANE'S CELEBRATED VERMIFUGE AND LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,
For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,
For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK HEAD-ACHE, &c. In cases of

FEVER AND AGUE,
preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivalled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

FLEMING BROTHERS,
PITTSBURGH, PA.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to
FLEMING BROS., Pittsburgh, Pa.

F. & B. Dealers and Physicians ordering from them these Fleming Bros. will do well to write their orders distinctly, and take none but Dr. M'Lane's, prepared by Fleming Bros., Pittsburgh, Pa. To those wishing to give them a trial, we will forward per mail, post paid, one year of the United States, one box of Pills for two three-cent postage stamps, or one vial of Vermifuge for fourteen three-cent stamps. All orders from Canada and be accompanied by twenty cents extra.

JUST PUBLISHED, ITALY, AND THE WAR OF 1859.

Giving a history of the causes of the War, with Biographical sketches and finely engraved portraits of its Heroes, together with the official accounts of the Battles of Montebello, Palestro, Magenta, etc. etc. and Maps of Italy, Austria, and all the adjacent countries by

MADAM JULIE DE MARGUERITE.
With an introduction by Dr. H. SHELTON MACKENZIE, handsomely bound in one volume, 12mo. cloth.

PRICE \$1.25.
And published by G. G. EVANS, 430 Chestnut St., PHILADELPHIA.

"ITALY AND THE WAR OF 1859."—This handsome volume, written by Madame Julie de Marguerite, and suitably illustrated with Maps and Portraits has just been published by G. G. Evans (the original Gift Book Publisher) of Philadelphia, at the low price of \$1.25 and is well timed as it is well executed. The design is to show Italy in her Past and Present, so that the reader may understand on what grounds she bases her expectancy of a glorious future, and this view the author, who has travelled largely through Europe, and has resided for a considerable period in Milan, with visits to the other great cities of Italy, describes places with which she is acquainted, and personages whom she intimately knew. The statistics of the various States now engaged in hostilities, are given with biographical sketches of the Sovereigns generally, and Statesmen, whom the war has thrown into prominence. A great deal of personal anecdote is introduced, which very much adds to the spirit and acceptability of the work. The causes of the war are fully and fairly developed, and there is appended an authentic account of the war itself up to the present time, including the official report of the various battles, and the glorious exploits of General Garibaldi, the gallant General Cialdini, &c.

We notice that in an introduction to the work, Dr. H. Shelton Mackenzie, Literary and Foreign Editor of "The Press," (Philadelphia) very warmly eulogizes its designs and execution. A copy of the Book, and a handsome present, will be sent by mail, post-paid, upon receipt of \$1.25 for the book, and 21 cents for postage.

A new Classified Catalogue of Books and Gifts, with Inducements to Agents, will be sent free, on application.

DR. HOOFLAND'S
GERMAN BITTERS,
AND
DR. HOOFLAND'S BALSAMIC
CORDIAL.

The great standard medicine of the present age, has acquired their great popularity only through years of trial. Unbounded satisfaction is rendered by them in all cases; and the people have pronounced them worthy.

Liver Complaint, Dyspepsia, Jaundice, Debility of the Nervous System, Diseases of the Kidneys,

and all diseases arising from a disordered liver or weakness of the stomach and digestive organs, are speedily and permanently cured by the GERMAN BITTERS.

The Balsamic Cordial has acquired a reputation surpassing that of any similar preparation extant. It will cure, WITHOUT FAIL, the most severe and long-standing Cough, Cold, or Hoarseness, Bronchitis, Inflammation, Group, Pneumonia, Incipient Consumption,

and has performed the most astonishing cures ever known of

Confirmed Consumption.

A few doses will also at once check and cure the most severe Diarrhoea proceeding from Cold in the Bowels.

These medicines are prepared by Dr. C. M. JACKSON & Co., No. 418 Arch Street, Philadelphia, Pa., and are sold by druggists and dealers in medicines everywhere, at 75 cents per bottle. The signature of C. M. JACKSON will be on the outside wrapper of each bottle.

In the Almanac published annually by the proprietors, called EVERYBODY'S ALMANAC, you will find testimony and commendatory notices from all parts of the country. These Almanacs are given away by all our agents.

BY TELEGRAPH.

Arrival of the Steamship Paris.

New York, Aug. 3.
The Emperor Napoleon is reported to be desirous of a Congress on Italian affairs, as giving greater effect to the cancelling of the treaties of 1815.

VIENNA, Friday Evening.—In course of the next week, the representatives of Austria and France will meet at Zurich.

Austria and France will then conclude a treaty of peace, and Sardinia, if she pleases, may accede to it by an additional article.

The Paris correspondent of the London Globe says it is now formally announced that neither Victor Emanuel nor any responsible minister of Sardinia, has signed any paper at Villa Franca, save and except the armistice, which continues till the 15th of August.

Austria and Sardinia are still in a constructive state of open war, no peace terms having been accepted between these two belligerents.

The Lombard's were apprehensive of being saddled with some proposition of the liabilities of Piedmont.

A Paris letter says that news had reached there that eighty-five municipalities in Tuscany had already proclaimed their design to offer armed resistance to the re-intrusion of the late dynasty.

The Paris correspondent of the Times says that in reply to the Provisional Government of Tuscany, the Emperor Napoleon stated that he did not desire to force the Grand Duke upon them.

The absence of all tidings of Garibaldi's forces causes some surprise.

The French Government had presented to the King of Sardinia the greater portion of their floating batteries which are intended to be used on the siege of the Austrian fortresses.

A letter from Rome says that French troops were to be sent to Rimini with an order to prevent a revolutionary movement.

FRANCE
On the 21st the Emperor received the diplomatic corps.

The Papal Nuncio, speaking in the name of the cords, offered the Emperor his earnest congratulations on his happy return, and on his resolution to conclude peace.

The Emperor in reply says:—Europe was in general so unjust to me at the beginning of the war, that I was happy at being enabled to conclude peace as soon as the honor and interests of France were satisfied, and to prove that it had never been my intention to overturn Europe and provoke a general war. I hope this day that all reasons for disunion will disappear, and that the peace will be of long duration. I thank the diplomatic corps for their congratulations.

Further by the Paris.

A report was current that the English Minister had inquired how long the French troops were to remain in Italy.

It is stated that the number of spies employed in Paris has been doubled since the peace, and that there has not been such wholesale seizures of English journals in Paris since the coup d'etat.

An article in the Journal Gen Debate, directed against Eng and, attracted attention. It refers in a disquieting manner to the additions which England is making to her navy.

The Paris Bourse was dull.

A conspiracy against Prince Milosch and his son Lyodael, had been discovered at Belgrade. They were to have been assassinated on the 12th of July.

The conspirators are 4 Ministers and Senators, and the Prince had declared his intention of putting them to death, notwithstanding a formal protest from the Porte against his doing so.

DR. COGSWELL'S NEW MEDICAL SALT.

For Inflammatory Diseases Only.

New Medical Salt! New Medical Salt!

IT IS NOT A CURE-ALL.

For Inflammatory Diseases only

D. Cogswell's New Medical Salt, instead of the being a remedy for all ills, has control over but one ill, has but one aim, and accomplishes but one thing, to wit: subdues inflammatory diseases, whatever be its form or locality, whether in the head, throat, abdomen, extremities or skin.

NEW MEDICAL SALT. Its peculiar excellence is, that without the useless loss of blood and strength, it effectually cures inflammatory diseases, (no other,) by producing an equilibrium of the fluids in the body, the want of which is the sole cause of inflammation!

NOTES TO INVIGILATE! The following forms which the unbalanced fluids assume, and many not have mentioned, that have more or less fever or pain, are as usually subdued by the New Medical Salt, as fire is extinguished by water, to wit: Brain Fever, Headache, rash of blood to Head and Neck, Erysipelas, erythema, nose, lungs and liver, Malignant Spinal Affections, Erysipelas, Rheumatism, Pleurisy, Asthma, Cough, Dyspepsia, Venereal Diseases, Rheumatism, Gout, Scrofula, and all itching and other cutaneous eruptions.

D. Cogswell's New Medical Salt does just what it claims to do—no more, no less—equalizes the fluids by removing from the system all arterial and venous obstructions. Dissipates stimulants and thereby obtains a true and durable health.

D. Cogswell's New Medical Salt. Get a Libretto. Ask any Druggist about the New Medical Salt. If not sick, remember the New Medical Salt.

D. Cogswell's New Medical Salt is for sale in Batavia by H. W. Bellows and by all trustworthy druggists wherever the Herald is sold. It is not a Patent Medicine, but the product of an eminent Physician, no one is authorized to sell the New Medical Salt, nor is it sold without the directions on the circular.

MEDICINES.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vice, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending from parents to children, and the third and fourth generation. Indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by depuration from the blood of corrupt or aluminous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which renders the blood, deprives the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effective remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedies that have been discovered for the expurgation of this foul disorder from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERYSIPELAS, SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, OF ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAISES AND BOILS, TUMORS, TETTER, AND SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC AND MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "impurity of the blood," is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and value of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties reach, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitality. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is enabled to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Action of the Bowels, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

HERB DISPENSARY!

OFFICE 95 MAIN STREET, (In door, Up stairs, Buffalo, N. Y.)

A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING

Spermatorrhea, Nervous Debility,

Marasmus or Wasting Con-

sumption.

AND ALL

Diseases of the Urinary Genital Organs.

A CLASS of Maladies prevalent to a fearful extent in community; amounting to at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion, Lassitude, or muscular wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a slight strain; great palpitation of the heart, asthma, bronchitis and sore throat; swelling of the lungs and limbs, aversion to society, and to business or study, dimness of eyesight, loss of memory, dizziness of the head, ambling gait in various parts of the body; pain in the back and limbs, numbness, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhoea or Pleur Albugo, &c. Likewise Epilepsy, Hyetaria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases, all the above named disorders and a host of others not named, have their seat primarily in the sexual organs, and arise from morbid excitement and chronic inflammation—a state of morbid irritability, hence the want of success on the part of Old School Doctors.

Dr. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new. It is based upon scientific principles, with new discovered remedies, without the use of narcotics. The facilities of cure are such, that patients can be cured at their own homes without expense, in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these fearful ills, will receive for \$3 a series of Health Rules, and perfect chart of cure, which will be to them a true polar star through life.
